CROPS IN GREER COUNTY

Wheat Better Than Expected, While
Soybean Seed Cotton Is Good.

MANUEL, May 31.—Wheat harvest in this county will begin in two weeks. While the wheat in parts of the county is thin, farmers generally are expecting a good yield.

Considering that green bugs and drought have injured some of the wheat in some parts of the county, many of the farmers will harvest their wheat this season without employing outside help. The Wheat Growers' association has agreed throughout Greer county to pay \$3 per day for harvest hands.

Cotton in the county, where planted early, has an excellent stand. Many farmers, however, have abandoned this crop and planted corn, maize and other grains instead. In some localities, oats are being plowed up and cotton planted in their stead. Alfalfa has had one cutting and is nearly ready for another. A small amount of rice and barley will also be harvested. Potatoes will make a good yield with a little more rain.

The fruit is short, but there is expected to be a fair supply.

Burglars Come Twice.

Guns, knives, and other articles of value were taken, some of which, after the first burglary, were recovered, and two men are now in jail awaiting trial.

The play will be given by the same cast, as nearly as possible, and will be presented in convention hall. Confederate veterans and daughters of Confederate veterans of Oklahoma will join forces for the allied state conference.

I am not a doctor, but PHYSICIANS HAVE OFTEN ADVISED PEOPLE TO TRY ME. Former UNITED STATES SENATORS, United States Army Generals, Judges of U. S. Courts and many well known people have availed themselves of my help.

STRONG MEN, ATHLETES, BRAIN WORKERS—they know what I can do when they want the "stay there" strength and endurance that wins.

WOMEN WHO ARE WEAK, nervous and irritable as a result of overwork, worry or household drudgery have often obtained most surprising relief from me.

Which, as a result of that statement, you are up testing tried in the morning when you can no longer do your day's work without being all fagged out at night when your digestion all goes wrong, or you have pains across the back and your face looks pale and drawn, do not wait until you go all to pieces and collapse in a state of nervous prostration or until in your weakened condition you contract some serious disease, but try me. I only take one minute of your time each day. I am SUXATY-IRON—organic iron. I am like the iron in your blood and like the iron in spinach, lentils and apples. I help make strong, healthy and blooded men and beautiful healthy, long-lived women. Without this iron, your blood becomes pale, thin and watery, and loses its power to change food into living tissue.

"Snowblind" a Tense Drama Begins at the Majestic Today

Probably the most distinguished audience which ever saw a picture filmed was present during the making of some of the scenes of "Snowblind," which will be shown at the Majestic theater beginning today. The Congressional Joint Committee on Naval Affairs was inspecting the harbor of southern California at the time and was invited to the Goldwyn studio at Culver City to see a model motion picture plant in operation.

The senators and congressmen had the pleasure of watching Reginald Barker film one of the most dramatic scenes in the picture. Among the congressional party of 25 were Senators L. H. Ball of Iowa, Warren G. Harding of Ohio, and Henry W. Keene of New Hampshire and Thomas J. Walsh of Montana. Representatives Fred A. Britten of Illinois, Fred C. Hoke of New York, Lemuel P.
